FortiGate®-300C

Accelerated Security for the Mid-Enterprise and Branch Office

With the continued evolution of network security threats and the arrival of new applications seemingly every day, you need unmatched visibility and control over all of your network traffic. FortiGate Unified Threat Management (UTM) systems from Fortinet® give you the ability to improve your security posture and accelerate your network performance while simplifying your network infrastructure.

The FortiGate-300C appliance delivers industry-leading performance and flexibility with hardware-accelerated essential security technologies, including firewall, VPN, intrusion prevention, application control, and web content filtering, all managed from a 'single pane of glass' console. They also include other security technologies such as antivirus/antimalware, antispam, vulnerability management, and WAN optimization. The FortiGate-300C gives you the ability to identify and stop numerous types of threats from a single device.

The Power of Accelerated Security

The FortiGate-300C platform delivers the speed and comprehensive security your growing enterprise network needs. It integrates a purpose-built security processor, the FortiASIC Network Processor, into the FortiGate platform to deliver security throughput at switching speeds. Another purpose-built ASIC, the FortiASIC Content Processor, provides additional acceleration for content inspection. Eight hardware-accelerated LAN interfaces with an additional two non-accelerated WAN ports allow you to enforce policies between network segments for layered security with switch-like performance. The numerous accelerated security interfaces give you the freedom to create multiple security zones for various departments, users, access methods, and even devices, to enforce network security at accelerated speeds.

FortiGate Consolidated Security Solutions

Fortinet's consolidated security solutions provide an integrated set of core security and network services in a single, easy-to-manage, high-performance appliance that is capable of supporting a wide range of deployment scenarios. In addition, FortiGuard Subscription Services include dynamic updates to ensure your security environment remains current and your corporate resources are protected against the latest threats.

FortiOS Software Redefines Network Security

FortiOS is a purpose-built operating system that leverages the power of specialized FortiASIC hardware to offer increased levels of security and performance. Fortinet developed FortiOS software solely for the FortiGate consolidated security platform. FortiOS software enables a comprehensive suite of security services, including firewall, VPN, intrusion prevention, application control, web filtering, data loss prevention, and end point control.

The FortiASIC Advantage

FortiASIC processors power FortiGate platforms. With exclusive hardware, the purpose built, high performance network, security, and content processors use intelligent and proprietary digital engines to accelerate resource-intensive security services.

Challenge	Solution
Visibility and control of new applications and content	FortiGate-300C appliance delivers complete, comprehensive application control, enabling you to block unwanted traffic and behavior.
Time-sensitive applications require extremely low- latency during transit	FortiGate-300C appliance ensures that security is never a bottleneck. Up to 8 Gbps firewall performance and up to 4.5 Gbps IPSec VPN performance ensures optimal performance of latency-sensitive applications.
Internal network segmentation is difficult to deploy	FortiGate-300C appliance with eight hardware-accelerated switched LAN ports with 10/100/1000 interfaces and an additional two non-accelerated WAN ports, permit a wide-array of deployments.
Applications are expected to perform well over the WAN	The FortiGate-300C features 32 GB of onboard storage for WAN Optimization and on-device reporting.
Eliminating blind spots caused by using multiple non-integrated security technologies	Fortinet combines core security technologies such as firewall, VPN, intrusion prevention, and application control into a single platform, providing an effective all- in-one solution.

Technical Specifications		FortiGate-300C
HARDWARE SPECIFICATIONS		
Total 10/100/1000 Interfaces (RJ-45)		8
Maximum Network Interfaces		10
USB (Client/Server)		1 / 2
RJ-45 Serial Console		1
Internal Storage		32 GB
SYSTEM PERFORMANCE		
Firewall Throughput (1518 / 512 / 64 byte UDP packets)		8 / 8 / 8 Gbps
Firewall Latency (64 byte UDP packets)		2 µs
Firewall Throughput (Packets Per Second)		12 Mpps
Concurrent Sessions (TCP)		2 M
New Sessions/Sec (TCP)		50,000
Firewall Policies (Max / VDOM)		40,000 / 20,000
IPSec VPN Throughput (512 byte packets)		4.5 Gbps
Gateway-to-Gateway IPSec VPN Tunnels (System / VDOM)		6,000 / 3,000
Client-to-Gateway IPSec VPN Tunnels		10,000
SSL-VPN Throughput		200 Mbps
Concurrent SSL-VPN Users (Recommended Max)		500
IPS Throughput		1.4 Gbps
Antivirus Throughput (Proxy Based / Flow Based)		200 / 550 Mbps
Virtual Domains (Default / Max)		10 / 10
Max Number of FortiAPs		256
Max Number of FortiTokens		1,000
High Availability Configurations		Active/Active, Active/Passive, Clustering
Unlimited User Licenses		Yes

All performance values are "up to" and vary depending on system configuration. Antivirus performance is measured using 44 Kbyte HTTP files. IPS performance is measured using 1 Mbyte HTTP files.

Technical Specifications		FortiGate-300C
DIMENSIONS AND POWER		
Height		1.75 in (4.5 cm)
Width		17.01 in (43.2 cm)
Length		12.68 in (32.2 cm)
Weight		13 lb (5.9 kg)
Rack Mountable		Yes
AC Power		100 / 5A- 220 / 3A VAC, 60 - 50 Hz
Power Consumption (AVG / Max)		128 / 154 W
Heat Dissipation		525 BTU/h
Redundant Power Supplies		Optional
ENVIRONMENT		
Operating temperature		32 to 104 deg F (0 - 40 deg C)
Storage temperature		-13 to 158 deg F (-25 to 70 deg C)
Humidity		20% to 90% non-condensing
Compliance		FCC Part 15 Class A, C-Tick, VCCI, CE, UL/cUL, CB
Certifications		ICSA Labs: Firewall, IPSec, IPS, Antivirus, SSL VPN

Ordering Information	
Unit	SKU
FortiGate-300C	FG-300C
Optional Accessories	SKU
FG-310B and FG-300C External Redundant Power Supply	SP-FG310B-RPS
FRPS-100 Redundant AC power supply, supports four FG-200B/300C/310B units	FRPS-100

FortiGuard® Security Subscription Services deliver dynamic, automated updates for Fortinet products. The Fortinet Global Security Research Team creates these updates to ensure up-to-date protection against sophisticated threats. Subscriptions include antivirus, intrusion prevention, web filtering, antispam, vulnerability and compliance management, application control, and database security services.

FortiCare™ Support Services provide global support for all Fortinet products and services. FortiCare support enables your Fortinet products to perform optimally. Support plans start with 8x5 Enhanced Support with "return and replace" hardware replacement or 24x7 Comprehensive Support with advanced replacement. Options include Premium Support, Premium RMA, and Professional Services. All hardware products include a 1-year limited hardware warranty and 90-day limited software warranty.
